**Status:** Completed

**Program:** Headquarter Offices

Reception

Corridors

Meeting rooms

Citygate is the newest iconic landmark in Sharjah located at the intersection of Dubai and Sharjah. This 24-storey commercial tower offers truly international, ultra-premium Grade-A office space in a dynamic setting. The main concept is a spacious, flexible, column-free floor plans, open design and naturally-lit offices. This allows to incorporate multiple layouts to host meetings, conferences and trainings with a capacity of up to 150 people. The program includes the interior design of main entrances, corridors, meeting rooms, open working offices, restaurant and cafeteria and break areas.

Private Offices benefit from great views of the city and lagoon, and hold a distinctive touch of class and elegance that each tenant can customize according to their needs and taste. Floors, walls and ceilings feature geometric patterns which break with any sort of monotony and keep tenants motivated to perform their jobs. Break areas in the 3rd and 4th floors include a cafeteria and a gym to provide a healthy, active lifestyle for all occupants.
