Dammam Villas

Location: Dammam, Kingdom of Saudi Arabia

Year: 2022

Status: Design

Program: High End Villas

Prepare to be captivated by the enchanting blend of Saudi Arabia's past and present, as we translate its marvelous features into an interior design that reflects the nation's spirit and unrivaled grandeur.

The color palette consists of pastel tones, such as soft blues, aquamarines, and whites, which evoke a sense of calm and freshness. These colors are complemented by touches of pearl tones, adding an elegant and sophisticated touch to the environment.

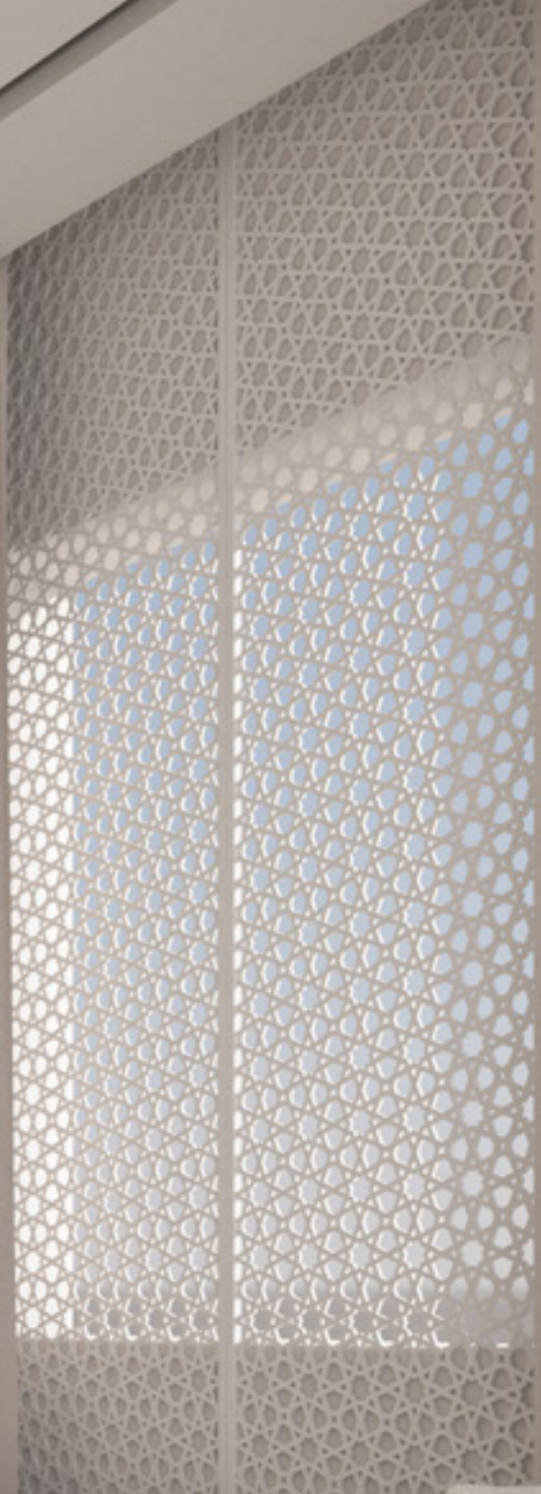

When it comes to textures, we have carefully selected materials that capture the natural beauty of the eastern region. We incorporate elements inspired by the marine environment, such as pearls and seashells, which bring an element of elegance and subtlety.

For furniture, we have chosen high-end pieces that blend contemporary and traditional styles. The furniture features clean and elegant lines, in warm wood tones and upholstered in high-quality fabrics. These elements bring warmth and sophistication to the space, creating a cozy and refined atmosphere.

Bedroom

To complete the design, we incorporate accessories and metallic details in champagne and silver tones, adding a sleek and modern touch while highlighting key elements of the space. Additionally, we use decorative lighting that reflects the beauty of Islamic architecture, creating a warm ambiance and highlighting the beauty of the spaces. With this design option, we aim to capture the essence of the eastern region, offering a serene and elegant environment that reflects the tranquility and beauty of the Arabian Gulf coast. The soft color palette, natural textures, and high-end furniture come together to create a captivating design that captures the essence of this region and offers a serene and refreshing ambiance.
